Dear School Head/School Leader:

Warm greetings from PEAC!

The Private Education Assistance Committee's mission is to enable quality, sustainability, and innovation of the private education sector in support of national development. It is important that leaders in the education sector are able to respond to the changing landscape.

PEAC has worked with the Lee Kuan Yew School of Public Policy (LKYSPP) on successful runs of the program on *Transforming Higher Education Leaders through Effective Policy Reforms* since 2018.

We are pleased to announce the new executive program on **Data Science Analytics: From Data to Insights** designed and developed for PEAC by LKYSPP of the National University of Singapore. This program aims to equip school leaders with knowledge to deal with big data as they navigate findings and insights from statisticians. Through the course, participants will have an overview of data analytics, concepts and a deeper understanding of data applications.

The three-day executive course is an in-person program that will be held on **February 21-23, 2023** at the Bukit Timah Campus of the National University of Singapore. There is a course fee of **PHP 96,000.00** which includes course materials, certificate, lunch and refreshments, and local ground transportation for the site visit only.

Participants are expected to cover and handle their own flights, airport transfer, accommodations, daily transportation, insurance, incidentals, and other living expenses which are excluded from the course fee.

Participants must be fully vaccinated to enter Singapore, otherwise, will be required by the Immigration and Checkpoints Authority (ICA) of Singapore to take the prescribed COVID-19 test and ensure a travel insurance covering COVID-19 as stipulated in this link, <https://www.ica.gov.sg/enter-transit-depart/entering-singapore>. Please visit the website of ICA for updates on entry requirements to Singapore in February 2023.
